Room 4E628, The Pentagon
Washington 25, D. C.

Dear Arleigh:

I greatly appreciated the opportunity to look over your proposed address to the National Security Industrial Association in Los Angeles on 18 November 1959.

I read the speech with much interest. There are no statements in it which seem to me to raise any questions from the viewpoint of protecting intelligence sources and methods. This, as you appreciate, is the only angle we have any real competence to pass upon.

With kind personal regards, I remain,

Sincerely,

Allen W. Dulles
Director

Dear Arleigh:

Thanks for the opportunity to look over your proposed address to the National Security Industrial Association in Los Angeles on 18 November 1959.

I read the speech with much interest. There is nothing in it that CIA would object to from the viewpoint of protecting sources, methods, and intelligence information from the standpoint of national security interests. You have a good speech and there are no changes that I would recommend you make.

Kind personal regards,

Sincerely,

mfk
